FUJI CORPORATION

Fuji Begins Construction of a New Factory Building in Okazaki

Increasing the production capability for SMT pick and place machines

Fuji Corporation (headquarters: Chiryu, Aichi; president and COO: Mr. Shinsuke Suhara; hereafter called "Fuji") will rebuild part of the existing facility and construct a new factory building at Okazaki Plant in Okazaki, Aichi.

Okazaki Plant after completion of the new building

Electrification and electronification have accelerated in a wide variety of fields such as 5G communications, electric vehicles, smartphones, and computers. Due to this, there is a need for increased production and stable supply of SMT pick and place machines that mount electronic components such as semiconductors on circuit boards used in electronic products and electronic devices.

Fuji, a manufacturer and seller of SMT pick and place machines will increase the production capability of Okazaki Plant, which is the main factory for manufacturing SMT pick and place machines by constructing a new factory building with the latest robot technology and IoT technology.

Overview of the new factory building at Okazaki Plant

Location	Okazaki, Aichi, Japan
Total cost of construction	Approx. 10,000 million yen
Total floor space	32,500 square meters (4 story building)
Schedule	November 2022: Starting construction September 2024: Starting operation
Production items	SMT pick and place machines and peripheral units
Equipment	Multijoint robots, automated conveyance robots, automatic warehouses, indoor positioning technology, unified production management systems

Company profile

Company name	FUJI CORPORATION
Representative	Shinsuke Suhara, President & COO
Location	19 Chausuyama Yamamachi, Chiryu, Aichi, Japan 472-8686
Established	April 1959
Business divisions	Development, manufacturing, and sales of SMT pick and place machines and machine tools
Capital	5,878 million yen (as of March 2022)
