## Establishment of Subsidiary in India Announcement

Fuji Corporation is pleased to announce that a subsidiary has been established in India.

### Details

#### 1. Establishment objectives

India, with a population that is second only to China with over 1.3 billion people, has recently achieved remarkable economic development and with this the electronic component mounter market has been growing every year, furthered by vigorous individual spending and governmental economic policies. Within these conditions, we are striving to improve customer satisfaction in the Indian market as well as expanding the market by strengthening support for local Fuji agents by establishing a subsidiary.

#### 2. Overview of the established subsidiary

1. Company name	FUJI INDIA CORPORATION PRIVATE LIMITED
2. Address	Gurugram city, Haryana state
3. Representative	Yohei Sato (Managing Director)
4. Business description	After-sale service and local Fuji agent support for products such as electronic component mounter robots
5. Capital	31,000,000 Indian rupees
6. Date of establishment	December 19, 2019
7. Investment ratios	Fuji Corporation: 99% Adtek Fuji Co., Ltd.: 1%
8. Start of operation	March 2020 (scheduled)

#### 3. Future perspective

We believe that this matter will have little effect on the consolidated results for Fuji Corporation for the fiscal period ending March 31, 2020.
