## **Fuji to donate to Turkey-Syria Earthquake Relief**

We would like to express our deepest grief to those who lost their lives in the earthquake that struck southeastern Turkey on February 6, 2023, and our heartfelt sympathy to all those affected by the disaster.

FUJI CORPORATION, together with its group company in Europe, FUJI EUROPE CORPORATION GmbH, has committed to make donations of approximately 10 million yen in total to support the affected areas in addressing the extensive damage caused by the massive earthquake in Turkey and neighboring Syria in early February. Our donations will be delivered to those affected by the disaster through the Japanese Red Cross Society and other relief organizations.

We sincerely hope for the safety of everyone and the earliest possible restoration of the affected areas.
