

## **Fuji Group establishes long-term targets for becoming carbon neutral**

Fuji Corporation (Headquarters: Chiryu, Aichi, Joji Isozumi; Representative Director, President, and COO) recognizes that conservation of the global environment is the most important issue common to all humanity, we have set a mid-term target of reducing CO<sub>2</sub> emissions (Scope 1 and 2) in our business activities by 46% by the end of fiscal 2031, compared to fiscal 2014 and we are continuing our efforts.

In order to make a concentrated effort to become carbon neutral by 2050, we have established the Fuji Group long-term targets.

### **Fuji Group long-term targets**

- Scope 1, 2 (Note) **Challenge to become carbon neutral by 2050**
- Scope 3 (Note) **Reduce CO<sub>2</sub> emissions for net sales per unit by 80% by 2050 (compared to fiscal 2022)**

Note: Scope 1: Direct emissions by in-house fuel consumption

Scope 2: Indirect emissions by in-house use of electricity and heat

Scope 3: Emissions of other companies generated in the value chain such as material procurement, logistics, and sales related to our business activities other than scope 1 and 2.

Fuji will continue to take on the challenge of becoming carbon neutral by 2050, and will continue to make sincere efforts to preserve the global environment for "Enriching the lives of those in the world around us" as stated in our Purpose. For our efforts to achieve the long-term targets, refer to the "[Environment](#)" section on our website.

### **FUJI CORPORATION**

Fuji Corporation is a global company that develops, manufactures, and sells SMT equipment and machine tools. Since its establishment in 1959, we continue to innovate for the future to come based on the evolving robotics and automation technologies and aim for sustainable growth as a robotics company. In the fields where robotics is expected to be used, such as manufacturing, health care, and logistics, Fuji creates new values by providing products and services that will excite and inspire our customers to enrich the lives of those in the world around us and contribute to the realization of a sustainable and mindful society that brings smiles to the faces of those who live there.
